Summary

B.Tech Computer Science & Engineering graduate with hands-on experience in Python, web development, machine learning, and database technologies through academic projects and internship experience. Familiar with HTML, CSS, JavaScript, PHP, Flask, SQL, MySQL, APIs, UI/UX, and Git/GitHub, with a strong interest in building practical web applications and AI-powered solutions. Quick learner with strong problem-solving and communication skills, eager to contribute to real-world client projects while continuously developing modern software engineering skills.

Education

B.Tech Computer Science & Engineering **2022–2026**
MES College of Engineering, Kuttippuram *CGPA: 8.63 / 10*

Technical Skills

Web Technologies: HTML, CSS, JavaScript (Beginner), PHP, JSON, DSA, OOPs, Software Testing Fundamentals.
Backend Development: Python, Flask, Laravel (Basic)
Programming Languages: Python, Java, C
Databases: MySQL, SQL
AI & Machine Learning: Machine Learning Basics, NumPy, Pandas, scikit-learn, NLP, TensorFlow (Basics), OpenCV, AI Chatbot Development
APIs & Tools: REST API Fundamentals, Git, GitHub, Google Colab, VS Code
Web & Design: UI/UX Fundamentals, Figma, Canva

Experience

Machine Learning / AI Intern **Sep 2024 – Oct 2024**
ICT Academy of Kerala

- Gained hands-on experience with core **Machine Learning and Artificial Intelligence concepts**.
- Worked on a **machine learning project** involving data preprocessing, analysis, and model experimentation.
- Applied programming and problem-solving skills to work with real-world datasets and technical tools.
- Strengthened analytical, debugging, and problem-solving abilities through project-based learning.

Projects

Movie Success Prediction Web Application | *Python, Flask, Machine Learning* **2024**

- Developed a web-based application using **Flask** to predict movie success based on IMDb movie data.
- Trained a **Random Forest classifier** to classify movies as Hit, Average, or Flop.
- Integrated the trained machine learning model with a Flask web interface for user input and real-time predictions.

AI Chatbot Web Application | *Python, Flask, NLP* **2024**

- Built a Flask-based chatbot application providing basic conversational interaction through a web interface.
- Worked with NLP and a pretrained conversational language model to generate responses.
- Integrated backend Python functionality with a web-based frontend.

NLP-Based Curriculum Updation System | *Python, NLP, Web Data* **2026**

- Developed an NLP-based system to analyze industry job trends and identify skills relevant to curriculum updates.
- Applied text preprocessing techniques including **tokenization, stopword removal, stemming, and NER**.
- Worked with web-scraped data and structured the extracted information for analysis.

Personal Website | *HTML, CSS, JavaScript* **2025**

- Designed and developed a personal website using **HTML and CSS** with basic JavaScript functionality.
- Focused on clean layouts, user-friendly navigation, responsive presentation, and basic UI/UX principles.

Relevant Knowledge

- **Web Development:** Understanding of frontend and backend development concepts, HTTP, forms, web interfaces, and client-server interaction.
- **Database Development:** Familiarity with MySQL, SQL queries, relational databases, and basic database operations.
- **API Integration:** Basic understanding of APIs, JSON data, and connecting applications with external services.
- **AI Technologies:** Familiarity with NLP, machine learning, AI chatbot development, and AI-powered applications.
- **Development Workflow:** Familiarity with Git/GitHub, VS Code, debugging, testing, and project-based development.

Soft Skills

Soft Skills: Problem-Solving, Analytical Thinking, Independent Learning, Communication, Teamwork, Adaptability, Attention to Detail

Awards & Achievements

- **Inventron 24-Hour Hackathon – 5th Prize (2024)**
- **Machine Learning / AI Internship – ICT Academy of Kerala (2024)**
- **Academic Excellence – CGPA 8.63/10**
